

**Joined up for Jobs –
online management
information and tracking
system**

Kate Kelman

Job Strategy Development Officer, CCP

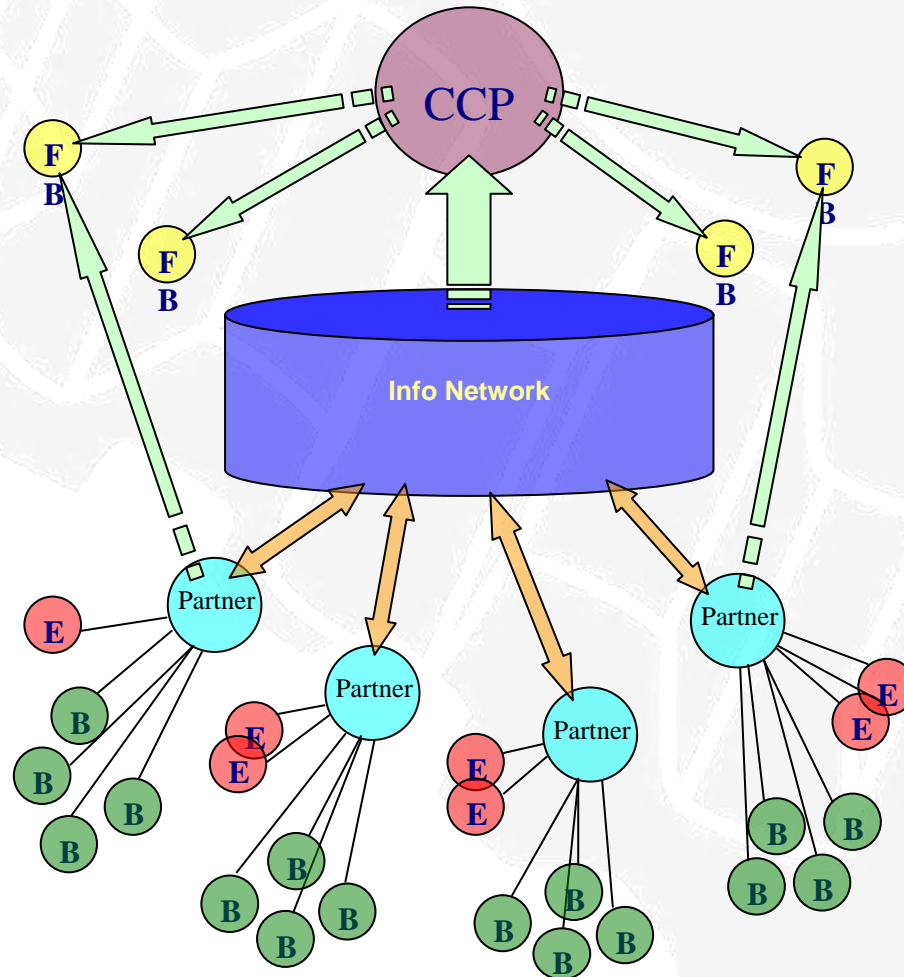

Key objectives

- To generate improved management information
- To create a framework for joined-up working
- To support effective provision

Progress

- Creation of an ICT specification
- Tendering process
- Steering group
- Functional Specification

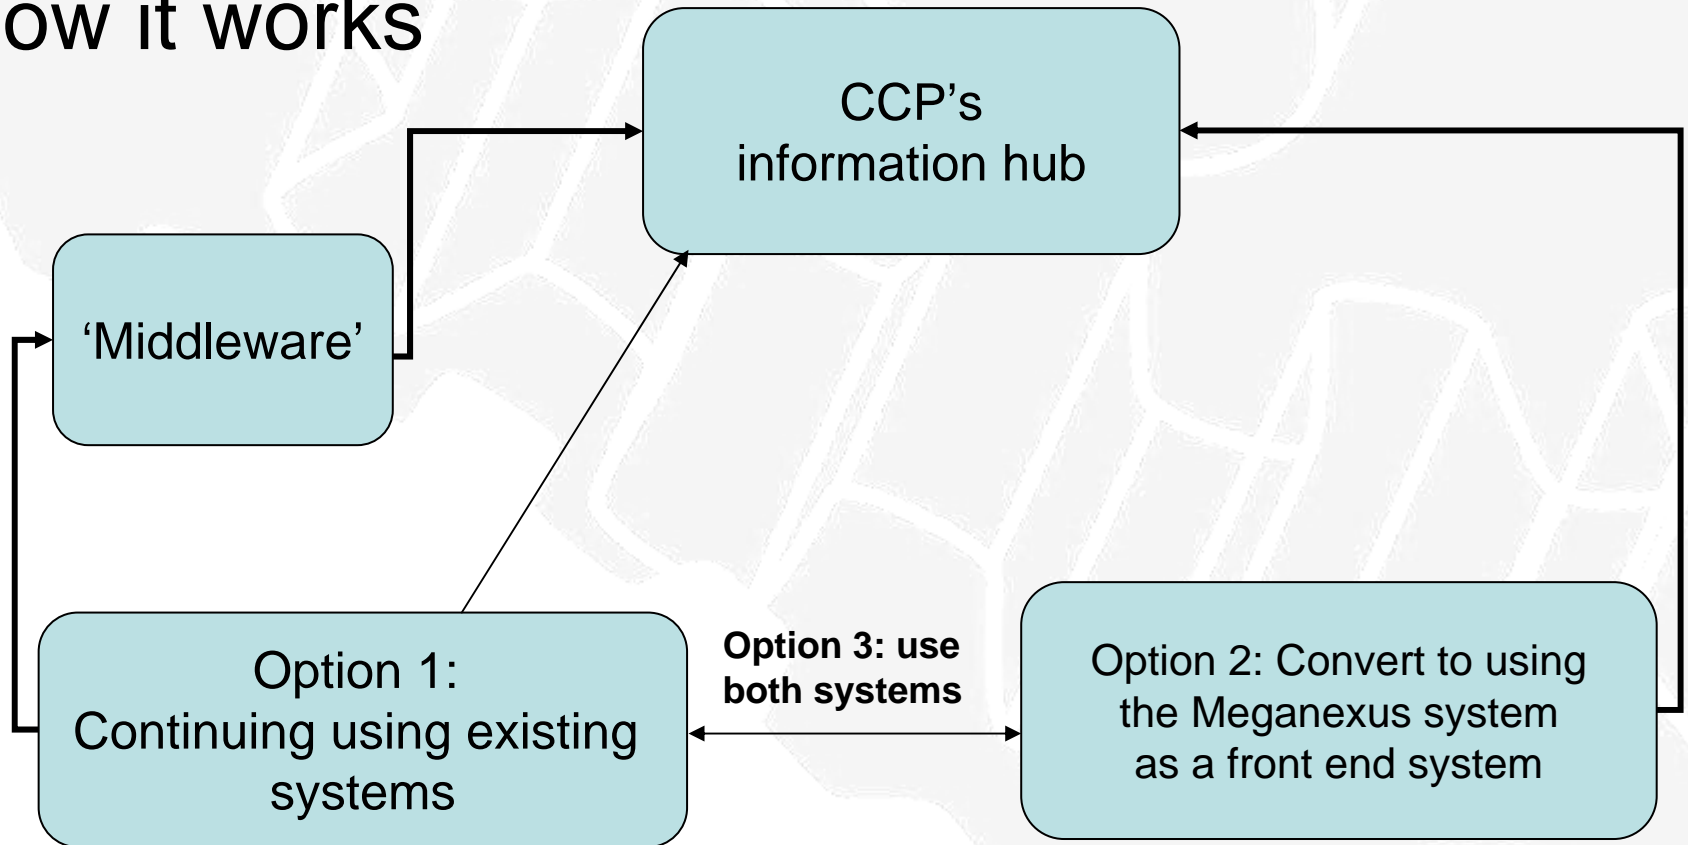

Meganexus' Product

Joined up for Jobs Management Information and Tracking System

Meganexus' Product (2)

- How it works

Meganexus' Product (3)

- Beneficiary information
- Employer information
- Caseload information
- Upload action plan
- Upload (and share) CV
- Reporting suite – at provider and funder level
- Referral protocols
- Quick assessment

Partnership

- Steering Group (West Edinburgh Action; Worktrack; Working Links; Access to Industry, CEC (Get On); Foursquare (CORE); Waterfront recruitment centre
- Future: Joined up for Jobs Partnership; Edinburgh City Jobs Strategy Partners etc.?
- eCARE; national systems

Challenges

- Data sharing
- Informed consent
- Organisations' ability to upload information to the system
- Data Integrity
- Complexity of negotiating interfaces with other local / national systems

Immediate Tasks

- Finalise name
- User acceptance testing
- Scenario testing
- Creating links with existing systems
- ‘Go live’ for early adopters
- Go live for steering group / funded projects
– April 2008
- Phase two: other users
