...employment access organisations

What Employment Academies can do for you...

...Employment Academies can work with you and your organisation to help find employment for the jobseekers you work with.

Each Employment Academy works with one employment sector.

Because they do this, they have established links with employers in that sector.

The links an Employment Academy has with its sector means that they know:

- What careers are on offer within that sector
- What a jobseeker might want to know about that sector
- What skills, qualification and attributes a sector is looking for from employees

This means that Employment Academies can work with you to:

- Provide information on a sector for you and your jobseekers
- Build the right skills and knowledge for jobseekers to find employment in that sector
- Provide an introduction to employers

Employment Academies' Client Comments

Jobseekers

"I've always loved making things ... and I've found that I really like the job."

Construction Academy client

"Great course, great support, ... great job!"

Creative Industries Academy client

Employers

"The recruits we have taken on have had lots to offer". Healthcare Academy client

To find out more about what an Employment Academy can offer your organisation and your jobseekers; for a copy of the Employment Academies booklet; if you want to know the sectors they cover, then contact the Employment Academies' Administrator:
